

# Neptune

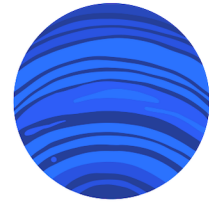

## Fun fact for kids

Neptune is the eighth and farthest planet from the Sun.

Neptune has the strongest winds in the solar system, reaching up to 1,500 miles per hour.

It's known for its deep blue color due to methane in its atmosphere.

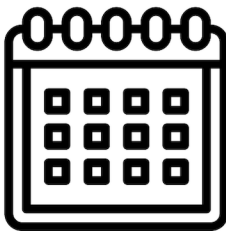

Neptune has six faint rings made of ice particles and dust.

Neptune has 14 known moons, with Triton being the largest.

A day on Neptune is roughly 16 hours long.

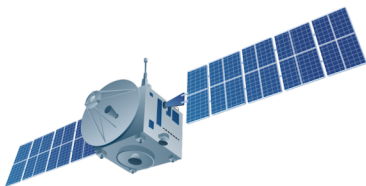

It takes Neptune about 165 Earth years to orbit the Sun.

## 1846 AD

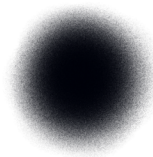

Neptune was discovered in 1846 using mathematical predictions.

Neptune is about 17 times the mass of Earth.

The Voyager 2 spacecraft is the only one to have visited Neptune.

Neptune has a giant storm called the Great Dark Spot, similar to Jupiter's Great Red Spot.

The planet is named after the Roman god of the sea.
